Gütt Olk Feldhaus advises EnWave on its Acquisition of a Controlling Interest in Hans Binder Maschinenbau

Munich, October 18, 2012 – The German business law firm Gütt Olk Feldhaus advised EnWave Corporation, a Canadian industrial technology company listed at the TSX Venture Exchange (TSX-V), on its acquisition of a majority shareholding in Hans Binder Maschinenbau GmbH. Hans Binder Maschinenbau GmbH is a family-owned German dehydration equipment builder with extensive vacuum-microwave and conventional drying technology expertise.

The acquisition is facilitated by a capital increase and accompanied by a significant investment under a patent and licensing agreement as well as a working capital facility. While the TSX-V has already provided conditional approval, it is expected that the transaction will be closed in due course.

The Munich-based boutique law firm Gütt Olk Feldhaus was founded in 2011. The partners of Gütt Olk Feldhaus previously worked for many years at Freshfields Bruckhaus Deringer LLP and, in the case of Sebastian Olk, also at Milbank, Tweed, Hadley & McCloy LLP. The key areas of expertise of Gütt Olk Feldhaus are corporate, M&A and finance.
